

Your Never-Ending Life shows us that, “All life revolves around universal learning, no matter what religion or faith you belong to; it matters not if you are a Christian, Muslim or Jew.” So, here is a book that does *not* reject religion but instead offers the philosophies that religions are based on. And that is a revelation!

Here are the origins and explanations for Emotional Control, Love, Karma, Action & Effect, Preordination, Incarnation Characteristic, Protection, Time, Guidance, Learning, Restoration and Free Will---the universal laws that can and will enhance your being.

In this reviewer’s opinion, **Your Never-Ending Life** offers the reader the means to achieve a more successful lifetime by learning and embracing the twelve universal laws. More, an understanding of who we are and why we are here. Sandy Andrew has given us an exemplary light to illuminate the path to betterment. Well written!
